

HETHWOODHOORAH

JANUARY 2021

News from the Director

JONATHAN STEELE

Happy New Year! I hope that everyone had a great holiday season and is ready for 2021. I know that things were different this year but I still hope that everyone got a chance to refresh and reflect on the important things in life.

As we enter into 2021, please pay attention to this space and our website for updates on all community matters. We will have the hours of operation for the fitness center, the Hethwood Foundation office, and any other important community information. We will also have the dates and times posted for our quarterly Hethwood Foundation Board Meetings. Much like last year, the meetings will be conducted virtually so please contact the office if you would like to attend. I will send out the Zoom information the morning of the meeting. Reminders will be sent prior each meeting. Please let us know if you have any questions regarding the meeting dates and times.

On a final bittersweet note, we say goodbye to our Office Manager Kristina Lundquist. Kristina has been with the Hethwood Foundation since August 2018 and has done an excellent job! Kristina helped redesign this newsletter, she redesigned the website, she organized all of our crafting events, and she contributed in so many other ways to our community. She completed all of these tasks while attending graduate school to become a teacher! Kristina's energy and passion will be missed but I am excited as she embarks on her new career path. Please join me in saying goodbye and good luck!

A search for a new Office Manager is currently being conducted. If you, or someone you know, is interested in the position then please contact the Hethwood Foundation for more details.
